

# Congratulations on your purchase of an Aria Forte high-intensity LED music light

## Operation

---

To attach Forte to any solid-desk music stand, depress the spring-loaded clips in the back and slide Forte over the top lip of the stand. Turn the light on by rolling the thumbwheel. Adjust the light intensity to the level you desire.

Forte can operate either on battery or wall power. The lower the brightness, the longer your battery will last.

## Charging

---

Fully charge Forte before the first use, which also calibrates the battery meter. Forte charges while on, but it will charge less rapidly.

To charge, plug one end of the included power cord into the USB charger and the other end into the light. A full charge can take up to 9 hours. Forte uses a gentle charge that ensures long life for your battery. There is no need to fully discharge the battery before a charge. In fact, charging early helps battery longevity.

<b>When</b>	<b>Yellow status LED</b>	<b>Meaning</b>
Just after turning on	4 blinks	Fully charged
	3 blinks	<75% charged
	2 blinks	<50% charged
	1 blink	<25% charged
Plugged in	On	charging
	Off	charge complete
On battery	slow blink	battery <20%
	rapid blink	battery <5%, light going off soon

Another USB charger may be used with Forte. It should be rated at least 2 amperes at 5 volts to prevent charger shutdown or damage.

## Cleaning

---

Clean smudges on the surface with a damp cloth. Do not get the LEDs, power cord, thumbwheel, status indicator, or charger wet.

## Accessories

---

Aria offers a number of accessories for your music light including a soft carrying case, replacement batteries and chargers. Visit [arialights.com](http://arialights.com) to learn more.

## One-Year Limited Warranty

Aria Lights, Inc. warrants to the original consumer or end-user purchaser that this product is free from defects in material and workmanship for a period of one (1) year from the date of purchase. Some limitations apply. The full warranty is available at:

[www.arialights.com/warranty](http://www.arialights.com/warranty)  
or can be mailed upon request.

Forte uses a Lithium Polymer (LiPo) battery which contains recyclable materials. Consider recycling options available in your local area when disposing of this product. Do not dispose of in fire.
